Anytime is Exploring Time!

This summer you can go on your own learning adventures every day with PBS KIDS! Summertime is a great time to help your child explore new worlds, new characters and new ideas. Here are a few tips to help you keep the learning going all summer long.

- **Share stories!** Share a story with your child and ask him/her to share one with you - you'll build valuable literacy skills.
- **It all adds up!** You can build math skills during everyday errands like counting apples at the grocery store.
- **Take advantage of the great outdoors.** Have your child record observations and build science and language skills at the same time!
- **Build a collection.** You can practice categorizing, sorting and counting the items and writing labels for a display or scrapbook.
- **Make something.** Building anything, from a windsock to a play fort helps your child develop early engineering skills.
- **Use mealtime.** Find letters and words on menus, compare prices, or think of words that rhyme with the items on the table.

Visit pbsparents.org/summer to find links to activities, resources and offers from our partners: Association of Children's Museums, iTunes, National PTA, Reading is Fundamental and more!
